

The Value of Your SPCTPD Membership

Your SPCTPD membership provides numerous benefits and opportunities to influence educational/training policy. It is also a platform to be a voice for your program and trainees. The following are included in your membership:

- Access to www.SPCTPD.com
- Posting of Training and Job opportunities
- Updated news about issues in Pediatric Cardiology training
- Information about 4th year advanced training opportunities for your fellows
- A forum for exchange of ideas about pediatric cardiology training
- Volunteering and leadership opportunities for career advancement in education
- A sit at the table to address training issues at the national level
- Scholarship opportunities through committee participation
- Access to standardized evaluation tools
- Involvement with Educational research
- Opportunity for collaborative efforts in training and education with other associations such as CoPS and ACC
- Voting on important issues like Match cycle change etc..

Your dues also support our representation on the APPD , CoPS and the Joint Council. You will be receiving an invoice shortly directly from Bank of America - and can make direct payments to the bank - thereby avoiding issues with loss of checks in the mail etc. For the 10 programs who have not paid last year's dues- you could submit those along with this years...

Respectfully,

Your Secretary/Treasurer
Antonio G. Cabrera, MD, FAAP, FACC
Director, Pediatric Cardiology Fellowship Program
Cardiac Critical Care/Heart failure and Transplantation
Assistant Professor of Pediatrics
Sections of Cardiology and Critical Care Medicine
Baylor College of Medicine/Texas Children's Hospital
Houston, Texas 77030
